... A Positive Cure For All Blood Troubles. ...

HORACE A. THOMPSON, Foreman Smith Department Technological School, Atlanta, Ga., says: "I had suffered for some time with Rheumatism, and was scarcely able to attend my duties; took your Blood Tonic, got relief at once, and in five weeks was entirely cured."

MRS. LULA QUERVET, Echo street, Bellwood, Atlanta, Ga., says: That for five years she had suffered with a serious blood trouble, and had not walked a step in over two years, and after taking a course of Paragon Blood Tonic, is in perfect health—weighs 120 pounds, a gain of 35 pounds, and is doing all the household work and cooking for her family of six people.

ROBERT STEGALL, Engineer H. L. Schlesinger's Steam Candy and Cracker Factory, Atlanta, Ga., speaks of Paragon Blood Tonic as woman's great friend and upbuilder—that his wife improved while taking the first bottle, and a short course restored her to good health, and now she is attending all her household duties.

The above testimonials are on file at our office, and speak for themselves.

TWENTIETH CENTURY BABY TENDER.

OTHER PATENTS PENDING.

Office 404 Empire Building,

ATLANTA, GA.

The "Twentieth Century" Baby Tender learns the baby to walk. Amuses and entertains the baby. Keeps the baby out of all danger, such as falling out of doors, fire, etc. Strengthens the baby's little limbs and makes them grow straight. Takes care of the baby while the mother attends to her household duties, and saves the hire of a nurse.

Weighs less than fifteen pounds and can be moved in a minute. Allows the baby to sit, stand, walk, pick up and play with its toys at will. Nicely painted, and an ornament to any household.

Price, \$3.00.

HUNTER SCHOOL FOR BOYS.

College Preparatory.

70½ North Broad St., Atlanta, Ga.

B. T. HUNTER, A. M., Principal.

Course of study comprehensive and thorough, preparing young men for college or for practical pursuits of life.

Rooms, large, airy and accessible; furniture new and neat; chemical and physical apparatus; cabinet of minerals, botanical collections, charts, globes, maps, and other appliances for effective work.

The long experience of the Principal in the preparation of boys for the University of Georgia, the uniformly high standing of his pupils in college and their success in after years, fully warrant him in thus presenting the advantages of his school and the benefits derived from his personal training.

The discipline of the school is such as will commend to the careful consideration of thoughtful parents.
